

## Inspection Report

John Bryant  
2123 Kentucky Rd  
Seneca, MO 64865

Customer ID: **18698**  
Certificate: **43-A-3807**  
Site: 001  
JOHNNY BRYANT

Type: ROUTINE INSPECTION  
Date: 04-DEC-2025

### 2.40(b)(2) Direct

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

Two pregnant female French Bulldogs (Georgette, m/c #941000023150873 and Wilhelmina, m/c #941000022078299), were very thin on inspection. Both dogs have prominently visible lumbar vertebrae, visible ribs with slight fat cover on palpation, and pelvic bones that are easy to appreciate when standing. An abdominal tuck is present on both dogs, though less obvious on Georgette due to her being heavily bred. Both are routinely dewormed according to a schedule developed by the AV and currently being fed an adult maintenance diet. Pregnant and nursing females have increased nutritional requirements due to the additional demands on the body during pregnancy and lactation, and a poor body condition could negatively affect both the dam and the puppies. The licensee did not consult the attending veterinarian prior to inspection. The licensee must consult the attending veterinarian on developing an adequate feeding regimen for pregnant and nursing females to maintain a healthy body condition in those animals.

To be corrected by: 12.9.25

### 2.50(a)(1)

#### Time and method of identification.

At time of inspection a male Schnauzer (Otto) was not identified. Identification aids in record keeping and animal management. The licensee must identify the dog by an approved method, microchip, tattoo or official tag.

To be corrected by: 12.11.25

### 3.13(a)(4)

#### Veterinary care for dogs.

At time of inspection an adult male Schnauzer, Otto (no ID), was exhibiting some pendulous matting on his mid back and both hind legs. Matted hair can be painful and cause health issues if left unattended. The licensee must follow the program of veterinary care, which has been developed and approved by the attending veterinarian, to ensure appropriate grooming practices.

To be corrected by: 12.11.25
