Kenansville, FL 34739

Customer ID: **325812**
Certificate: **58-C-1024**
Site: 001
Wild Florida

Type: ROUTINE INSPECTION
Date: 31-DEC-2025

3.125(a)

Facilities, general.

The corner support board and wall to one of the giraffe stalls is in disrepair. The support board is cracked off at the top 12 inches exposing wood fragments. There is a deep vertical crack going down the board next to a metal support hinge. The upper left of the plywood stall wall dividing the giraffe stall to a keeper walkway, is broken and pushed out. The keeper walkway is approximately 3 feet wide and separates two giraffe stalls. The automatic water receptacle in the same giraffe stall is in disrepair and is leaking enough to cause algae formation on enclosure support beams and pooling of water on the floor of the stall. The wire fence separating the Oryx and Bongo enclosures has broken wire with sharp points sticking out into both enclosures.

Walls and support structures must be kept in good repair to prevent injury, possible escape or possible harm towards other animals. Sharp points and broken wood may cause injury to the animals.

Housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals. Correct by January 21, 2026. The wire fencing is to be corrected by this day, December 31, 2025, forward.

This inspection and exit interview were conducted with the facility representatives.
