Date: 19-NOV-2025

2.31(c)

Institutional Animal Care and Use Committee (IACUC).

The IACUC has not reviewed the research facility's Program for Animal Care and Use or inspected the animal facilities at least once every 6 months as required under the provisions of the Animal Welfare Act (AWA). An inspection and program review were conducted on May 9, 2024, and December 10, 2024. This timeframe exceeds the 6 months permitted between semiannual program reviews and facility inspections. Failure to conduct semiannual program reviews and facility inspections within the specified timeframe under the provisions of the AWA prevents a complete and thorough evaluation of animal care and use. The facility must ensure that semiannual inspections and program reviews are completed at least once every 6 months. To be corrected by December 17, 2025.

This inspection and exit interview were conducted with a facility representative.
