

Inspection Report

City of Albuquerque
903 Tenth Street S.W.
ALBUQUERQUE, NM 87102

Customer ID: **3483**

Certificate: **85-C-0001**

Site: 001

ALBUQUERQUE BIOLOGICAL
PARK

Type: ROUTINE INSPECTION

Date: 16-DEC-2025

3.106(b)(3)

Water quality.

There are five occurrences of delayed water quality testing, when coliform readings were not measured at least once weekly for the water inside the enclosure housing one adult male polar bear. Water quality monitoring records show that coliform testing did not occur on 5/6/2025, 7/15/2025, 9/23/2025, 10/7/2025 and 11/12/2025.

Failure to monitor coliforms, pH and other chemical additives as required can delay mitigation to prevent animal discomfort or illness resulting from poor water quality. The licensee must ensure that coliform testing is performed at least once weekly and that testing for pH and additive levels are performed at least once daily for all pools where marine mammals have access.

TO BE CORRECTED FROM THE DATE OF THIS INSPECTION ON 12/17/2025 AND GOING FORWARD

This inspection and exit interview were conducted with facility representatives.
