Certificate: **33-C-0119**

Site: 001

Rockford Park District

Type: ROUTINE INSPECTION

Date: 08-JAN-2026

---

### 3.153(c)

#### Primary enclosures.

The ducks' and swans' winter enclosure did not have an area to wade/swim. Access to a pool/aquatic area is a special space requirement for wading and aquatic birds and helps permit species typical-behavior. Ensure that the duck and swan winter housing has an aquatic area that allows each bird to make normal postural and social adjustments. Correct by February 1, 2026.

### 3.154

#### Environment enhancement to promote psychological well-being.

Birds at the facility were housed in appropriate environments, however a written plan for environmental enhancement for birds' psychological well-being was not available for inspection. A plan for environmental enhancement to meet birds' environmental and social needs is important to ensure each birds' wellbeing in the area they are housed. Ensure that a plan is developed with and approved by the attending veterinarian for the bird species housed at the facility.

\*\*\*Correct by March 2, 2026.

This inspection and exit interview were conducted with facility representatives.
