CITY OF INDEPENDENCE

Type: RE-LICENSE INSPECTION
Date: 30-SEP-2025

3.75(c)(1)(ii)

Housing facilities, general.

There is a section of a square metal tubing of a divider door within the enclosure housing 5 capuchins on the monkey island that is rusted to the point that a 3-4 inch section of it is missing resulting in sharp, jagged edges. Also the metal sliding door of an enclosure housing two capuchins is rusted resulting in jagged edges. Sharp jagged metal edges in contact with non-human primates can cause injuries. All surfaces must be maintained to be free of jagged edges.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by 29 November 2025 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
