

## Inspection Report

Oakland Nature Preserve  
PO Box 841  
Oakland, FL 34760

Customer ID: **334789**

Certificate: **58-C-1172**

Site: 001

OAKLAND NATURE PRESERVE

Type: ROUTINE INSPECTION

Date: 20-NOV-2025

### **2.40(a)(1)**

#### **Attending veterinarian and adequate veterinary care (dealers and exhibitors).**

The licensee stated that an attending veterinarian had not visited the facility since October 2023.

Regular visits to the premises by the attending veterinarian ensure the animals are not in danger of any facility or environmental obstacles that may cause harm to the animal. It also ensures good relations and communication with the attending veterinarian about the welfare of the animals.

Each dealer and exhibitor shall employ an attending veterinarian under formal arrangements that shall include a written program of veterinary care and regularly scheduled visits to the premises of the dealer or exhibitor. Correct by December 11, 2025.

### **2.75(b)(1)**

#### **Records: Dealers and exhibitors.**

The licensee did not have any disposition records for the death of three animals.

Good record keeping is necessary to track the health and well-being of individual animals in case of disease outbreak, illness, planning of veterinary care, daily observations, and transfer of ownership.

Each exhibitor shall make, keep, and maintain records or forms which fully and correctly disclose information concerning each animal purchased or otherwise acquired, owned, held, or otherwise in his or her possession or under his or her control, or which is transported, euthanized, sold, or otherwise disposed of by that dealer or exhibitor. Correct from this day, November 20, 2025, forward.

**3.159**

**Critical**

#### **Employees**

On 5/19/25 a female Bobwhite quail escaped its' primary enclosure when a door was left open by an employee. The bird was not recovered. On 9/25/25 a female Bobwhite quail was found in the enclosure of an opossum. These two enclosures are separated by one door that was left open by an employee. The bird was captured and was returned to its' primary

## Inspection Report

---

enclosure but was found dead the next day.

Improperly trained employees can lead to animal escape and possible harm to the health and well-being of the animals.

Adequately trained employees must be utilized to maintain the professionally acceptable level of husbandry and handling practices. Retraining was conducted after each incident. Correct from this day, November 20, 2025, forward.

This inspection and exit interview were conducted with the facility representative.
