

Inspection Report

Jaws and Paws Sanctuary
1457 Oak Hill Way
Roseville, CA 95661

Customer ID: **507895**

Certificate: **93-C-1173**

Site: 003

Jaws and Paws Sanctuary

Type: NEW SITE INSPECTION

Date: 02-DEC-2025

2.50(c)

Time and method of identification.

During inspection a recently acquired wolf dog was not identified as required in the regulations. Groot, a 2 year old wolf-dog hybrid acquired since the last inspection, was not identified with a tag, collar, tattoo or microchip at the time of inspection. All other animals on the facility were identified with a microchip, in accordance with the standing variance for microchips. An exhibitor shall identify all live dogs and cats under his or her control or on his or her premises, whether held, purchased or otherwise acquired as set forth in the regulations.

Correct by 7 December 2025 or the next scheduled new site inspection.

3.1(c)(2)

Housing facilities, general.

All surfaces in housing facilities must be maintained on a regular basis. In the kitchen area, a table edge was worn, with absorbent material exposed in an area where raw meat was prepared for consumption by the covered animals. The table can no longer be effectively cleaned or sanitized, and needs to be maintained or replaced. In the opening between the kitchen and the sheltered housing, the footing and kickplate had been damaged and exposed to water used to clean the kitchen and kennels. Surfaces of housing facilities that cannot be readily cleaned and sanitized, must be replaced or repaired when worn or soiled.

Correct by 7 December 2025 or by next scheduled new site inspection.

3.6(a)(2)(x)

Primary enclosures.

In one of the outdoor primary enclosures, there is a floor adjacent to fenceline where the concrete has cracked creating a gap. The concrete crack and gap allows the wolf-dogs feet to pass through the opening/gap and potentially get caught, causing injury. Primary enclosures must be structurally sound and kept in good repair to prevent injury to the covered animals contained within.

Correct by 7 December 2025 or the next scheduled new site inspection.

Inspection Report

This inspection was a site approval inspection.

This site is not ready for approval to conduct activity covered under your current Animal Welfare Act License.

Conducting regulated activities at a non-approved site is a violation of the Animal Welfare Act.

Please contact your inspector to schedule your next new site approval inspection.

This inspection and exit interview were conducted with facility representatives.
