Type: ROUTINE INSPECTION

Date: 26-SEP-2025

### **3.150(a) Critical**

## **Facilities, general.**

The housing facility containing an adult Canadian goose was not designed and/or constructed appropriately to contain the bird securely. Disposition records report the goose was missing from the enclosure on 6/22/2025. Staff continued to search the entire grounds daily for several days but never found the bird or evidence of what happened. Facilities that do not contain the birds securely or restrict other animals from entering can negatively affect the welfare of the birds within. Housing must employ security measures that contain all birds securely.
