Contingency planning.

The facility has a written contingency plan in place, however a review of the plan has not been conducted within the last year. Annual contingency plan reviews are required in order to ensure that it addresses all required criteria, such as handling, transportation, and care of the animals in the event of an emergency or disaster. All facilities are required to have a written contingency plan, which must be reviewed on an annual basis. The results of annual reviews and changes to the plan, if any, must be documented.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by January 25, 2026(60 days counted from 1st RL Inspection) or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
