YALE UNIVERSITY

Type: ROUTINE INSPECTION

Date: 01-DEC-2025

---

### **2.31(d)(1)(ii)**

#### **Institutional Animal Care and Use Committee (IACUC).**

IACUC approved Protocol #20669 did not provide a written narrative description of the methods and sources used to determine that alternatives were not available to procedures that are included in the protocol that may cause more than momentary pain or distress to the animals (sternotomy and laparotomy).

Per this Section, whenever a proposal for animal use contains procedures that may cause more than momentary pain or distress to the animals, the IACUC shall determine that: (1) the principal investigator has considered alternatives to those procedures and (2) that the principal investigator has provided a written narrative description of the methods and sources used to determine that alternatives were not available. These requirements ensure that all procedures contained in the protocol minimize discomfort, distress, and pain to the animals. The IACUC needs to address this item identified for this protocol. Correct by 12/19/25.

This inspection was conducted with facility representatives from 12/1/25 through 12/3/25. The exit briefing was held 12/3/25.
