

## Inspection Report

---

Westview Orchards  
65075 Van Dyke Rd  
Washington, MI 48095

Customer ID: **7815**  
Certificate: **34-C-0352**  
Site: 001  
Westview Orchards

Type: RE-LICENSE INSPECTION  
Date: 10-SEP-2025

---

### **2.75(b)(1)(v)**

#### **Records: Dealers and exhibitors.**

At the time of inspection, disposition records for 22 rabbits, 39 chickens, 2 pigs, and 4 ducks disposed of some time after October 9, 2024, did not include the date of disposition. Accurate and well-maintained records of acquisition and disposition of animals is critical to ensure a thorough inspection, to rapidly identify and trace animals in a potential disease outbreak, to make sure all animals are accounted for, and to verify animals at the facility receive adequate veterinary care.

The license shall make, keep, and maintain records or forms which fully and correctly disclose the information listed in 2.75(b)(1)(i)-(vii) concerning animals (other than dogs and cats) purchased or otherwise acquired, owned, held, leased, or otherwise in his or her possession or under his or her control, or which is transported, sold, euthanized, or otherwise disposed of by the licensee. The required information includes the date of disposition.

To be corrected from this day (9/12/2025) forward.

**3.153(c)** Repeat

#### **Primary enclosures.**

At the time of inspection, the pool (or aquatic area) in the enclosures housing 5 domestic ducks was not deep enough for the ducks to perform normal postural adjustments such as foraging type behavior. The 5 domestic ducks were all about 12 inches long from the tip of breast to the end of the tail. Further their necks were about 4 inches long. The pool available to the ducks was about 3 feet in diameter and 5 inches deep. A pool 5 inches deep is not deep enough for dabbling type ducks of this size to perform species typical behavior of tipping and dabbling. The inability to perform species typical behavior can lead to malnutrition, poor condition, debility, stress, and/or abnormal behavioral patterns.

Primary enclosures housing wading and aquatic birds must contain a pool or other aquatic area and a dry area that allows easy ingress or egress of the pool or other aquatic area. Pools and other aquatic areas must be of sufficient surface area and depth to allow each bird to make normal postural and social adjustments, such as immersion, bathing, swimming, and foraging, with adequate freedom of movement and freedom to escape from aggression demonstrated by other birds in the enclosure. Dry areas must be of sufficient size to allow each bird to make normal postural and social adjustments with adequate freedom of movement and freedom to escape from aggression demonstrated by other birds in the enclosure.

## Inspection Report

---

To be corrected by close of business on 9/26/2025.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with facility representatives.

All items must be in compliance within 2 more inspections or by 11/10/2025 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
