Type: ROUTINE INSPECTION
Date: 09-JAN-2026

2.75(b)(1)

Records: Dealers and exhibitors.

A current record of guinea pigs on hand was not available for review during the inspection. The licensee occasionally documented the weaned animals throughout the year, however, there were no records of the adult guinea pigs, births, or deaths since February 2025.

Failure to maintain records can make it difficult to identify trends in animal losses, which could indicate disease conditions. The licensee must maintain records containing the required information for animals which disclose the number of guinea pigs held, owned, or disposed of including births and deaths.

Correct by January 16, 2026.

This inspection and exit interview were conducted with the licensee.
