Type: ROUTINE INSPECTION  
Date: 18-NOV-2025

---

### 2.40(b)(2)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

There are several bottles of expired medications intermingled with non-expired medications intended for administration to animals as needed: Tylosin injection (expired 09/2022), methyl-prednisolone (expired 04/2025), oxytetracycline (expired 12/2023), enrofloxacin tablets (expired 12/2023), celecoxib capsules (expired 05/2023), buspirone tablets (expired 02/2025), diphenhydramine liquid (expired 12/2022), metoclopramide liquid (expired 09/2024), dorzolamide ophthalmic solution (expired 09/2023), buprenorphine injectable (expired 09/2024), butorphanol injectable (expired 2024), Atopica (expired 10/2024), atipamezole (expired 2024), etomidate intravenous injectable (expired 11/2024 and 03/2023), Adequan injectable solution (expired 08/2025). There is a bag of pre-filled 1 ml syringes labeled as cefazoline 100 mg/ ml but with no labeling to indicate the expiration date. The gas anesthesia isoflurane vaporizer was last serviced in 12/2022 and has not been serviced since its due date in 2023.

The use of expired medications, medications with an unknown expiration date, as well as use of unmaintained equipment is not considered to be a safe or appropriate method to prevent, control, diagnose, and treat diseases and injuries because expired drugs or faulty equipment may be ineffective or produce other undesired effects. Animals may experience discomfort or distress due to unrelieved symptoms or unexpected side effects from the use of expired medication, and anesthetic reversal may not be effective when needed. The program for providing adequate veterinary care shall include the use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries. This includes following established procedures to ensure expired medications are removed and cannot be administered to animals.

TO BE CORRECTED FROM THE DATE OF THIS INSPECTION ON 11/18/2025 AND GOING FORWARD

This inspection and exit interview were conducted with the facility representative.
