ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The left eye of the black toy Poodle puppy was observed to be cloudy. The licensee stated the puppy had scratched his eye while playing with another puppy a few days ago. A veterinarian was consulted and prescribed an antibiotic /steroid eye ointment however the puppy was not examined by a veterinarian. The puppy needs to be examined by a veterinarian to evaluate the cloudiness in the eye and to ensure that proper treatment is being used.
