Inspection Report

Maryland Zoological Society Inc 1876 Mansion House Drive Baltimore, MD 21217 Customer ID: 2002

Certificate: 51-C-0006

Site: 001

Maryland Zoological Society Inc

Type: ROUTINE INSPECTION

Date: 18-NOV-2024

3.127(d)

Facilities, outdoor.

The following areas were noted to contain overgrown vegetation, vines, and trees leaning against the perimeter fence:

- 1) The area of the perimeter fence west of gate 1 behind parking lot C.
- 2) The far side of the perimeter fence along waterfowl lake.

At least 20 white-tailed deer were seen inside the perimeter fence of the zoo. A white-tailed doe was seen running through an outdoor elephant enclosure during the inspection. Overgrown vegetation, vines and trees leaning against the perimeter fence can make it easier for animals such as deer to enter the zoo. The perimeter fence must be constructed and maintained to protect the animals in the facility by restricting animals and unauthorized persons from entering and having contact with the animals in the facility. Overgrown vegetation, vines and trees leaning against the perimeter fence must to removed to maintain the strength and height of the fence to restrict animals and unauthorized persons from entering the zoo. Correct by December 21, 2024.

This inspection and exit interview were conducted with the facility representative.
