3.31(c)

Sanitation.

Pest control. There were mouse droppings on shelves in the animal room and along the wall by the garage door.

Cardboard boxes with storage items are place on the floor below the shelves. Licensee must established and maintained and effective pest control program to prevent potential health risks to the guinea pigs. Preventing hiding and living areas for mice by removing cardboard boxes, not storing items on the floor along the wall, and cleaning shelves can help to control pest problems. Correct by January 27, 2023.

This inspection and exit interview were conducted with a family member.
