PAMELA & ROGER ZOPPE

Type: ROUTINE INSPECTION

Date: 29-JUN-2015

3.127(d)

FACILITIES, OUTDOOR.

The perimeter fence surrounding the enclousure housing the male chimp Ricky and capuchin is leaning inward, less less than 3' from the enclosure due to the tree branches leaning on the fence. The fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons. It must be at least 3' from the outside of the primary enclosure to prevent physical contact between animals inside the enclosure and animals or persons outside the perimeter fence.

TO BE CORRECTED BY: JULY 6, 2015.

The exit interview was conducted with the licensee and care taker.
