#### 2.31(e)(2)

#### Institutional Animal Care and Use Committee (IACUC).

Protocol BCH25016N provides a calculation for the number of animals proposed under the protocol but does not provide a rationale for the appropriateness of these numbers. Incomplete justification for animal numbers may compromise the ability of the IACUC to thoroughly consider the proposal. The investigator must thus provide a rationale for the appropriateness of the numbers of animals to be used.

Correct by March 14, 2025.

This inspection and exit interview were conducted with a facility representative.
