Environment enhancement to promote psychological well-being.

At the time of inspection, an environmental enhancement plan for birds that documents the appropriate provisions to provide enrichment and special considerations and is approved by the attending veterinarian has not been developed by the facility. This plan is necessary to ensure the psychological well-being and health of the animals. The facility must ensure that a documented plan for environmental enhancement that addresses the required elements and is approved by the attending veterinarian is maintained and available for inspection. Correct by 10/26/2023.

This inspection and exit interview were conducted with the facility representatives.
