Inspection Report

Capital of Texas Zoo L L C 376 A Jenkins Rd. CEDAR CREEK, TX 78612 Customer ID: 332212
Certificate: 74-C-1010

Site: 001

Capital of Texas Zoo L L C

Type: ROUTINE INSPECTION

Date: 01-JUN-2021

2.131(c)(1)

Handling of animals.

The wire barrier fence surrounding the upper end of the enclosure (containing 14 mouflon, two blackbuck and four nilgai) was sagging so it was only 2 feet high which would allow anyone to easily step over and reach the primary enclosure.

The barrier fencing near the end of the wallaby enclosure was limited to a single chain, which could easily be stepped over .

The public barrier in these locations is insufficient to keep the public from contacting the primary enclosures. All public barriers must be constructed and maintained to assure the safety of the animals and the public.

CORRECT BY: 6/9/2021

3.125(c)

Facilities, general.

In the food preparation building, there are two cans of bug spray on the food prep sink counter and a can of WD40 stored on the open shelving above food supplies.

An uncovered can of dog food, and a plastic bag of liquified greens are in the refrigerator door; moldy carrots are mixed in with fresh carrots and produce intended for animal consumption are in an open bin on the bottom shelf. There is liquid material coming from black bananas dripping on a piece cardboard on a lower shelf.
