

Inspection Report

Marlent Piedra 3951 S W 126 Ave Hollywood, FL 33027 Customer ID: **326691**

Certificate: 58-B-0565

Site: 001

MARLENT PIEDRA

Type: ROUTINE INSPECTION

Date: 28-MAR-2017

3.127(d)

FACILITIES, OUTDOOR.

There are two raccoons housed separately that do not have a six foot perimeter fence in place as required. The perimeter fence must be at least 6 feet high and a minimum of 3 feet away from the primary enclosure. The fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility, and so that it can function as a secondary containment system for the animals in the facility.

Correct by: 04-28-2017.

3.129(a)

FEEDING.

In the feed trough for the sheep, pig and goat in the far back right corner of the property there was a nylon mesh bag and a thick rubber band from the produce that was fed today. These foreign items can be accidentally ingested and cause potential harm if the animals were to become impacted. In this same enclosure there was a nylon piece of black rope that was laying on the ground. All of these items need to be removed and kept out of the animals feed, feed receptacles, and their enclosure for their health and well being.

Correct by: 03-29-2017.

This inspection and exit interview were conducted with the facility representative.
