Facilities, general.

The metal support system for the barn's roof has several areas in need of repair. There are areas of the metal beams that have severe rust damage and are missing sections of the beam. These defects may impact strength of the supports. The outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals.

The records from the December 2022 were inspected on February 1st, 2022. The facility inspection and exit interview were conducted with the office manager.
