Type: ROUTINE INSPECTION

Date: 17-MAY-2022

3.127(a)

Facilities, outdoor.

The 4 red river hogs have minimal shade in their enclosure. They are forced to seek shade inside an enclosed stall.

Additional shade must be provided to prevent discomfort to the animals when daytime temperature are in the upper 90s.

CORRECT BY: 5-20-2022

3.131(a)

Sanitation.

There is a large muddy area on the floor inside the section of the giraffe barn used by the male giraffe. It is under the feeding area inside the barn. Wet areas in animal housing areas create an unhealthy environment for the animals and can lead to hoof conditions and other health issues. Excreta shall be removed as often as necessary to prevent contamination, reduce disease hazards and reduce odors.

CORRECT BY: 5/20/22

This inspection and exit briefing were conducted with a facility representative.
