#### **Inspection Report**

San Antonio Zoological Gardens

3903 N St. Mary's St. San Antonio, TX 78212 Customer ID: 4855

Certificate: 74-C-0494

Site: 001

San Antonio Zoological Gardens

Type: RE-LICENSE INSPECTION

Date: 22-AUG-2023

#### 3.158(d)

At the time of inspection there were over 15 rats in the exhibit of the female cassowary "Apple". The rats were going back of forth to her food bowl to eat, running along and into the walls of the outdoor exhibit, and at least three rats were seen to be climbing the trees. In holding area of the cassowary, blue duiker, and warthogs there was excessive rodent dropping in all on the holding pens and the hallways. There was not an effective program to control rat infestation in place. Rats can spread disease and contamination that can harm that wellbeing of mammals and birds. There needs to be a safe and effective program put in place to eliminate the rat infestation.

This is a 1st Re-License Inspection for a Class C license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by October 22nd 2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
