

# United States Department of Agriculture Animal and Plant Health Inspection Service

TSTOTT **2016090000768431** Insp. id

#### **Inspection Report**

CITY OF ROSWELL P. O. DRAWER 1838

ROSWELL. NM 88202

Customer ID: 3487

Certificate: 85-C-0005

Site: 001

CITY OF ROSWELL

Type: ROUTINE INSPECTION

Date: 24-FEB-2022

3.131(c)

Sanitation.

The floors of the commissary building are dirty throughout, with heavy accumulation of brown-to-black dirt/debris in some areas. The sink, as well as metal shelving used to prepare food and store food receptacles is covered in a layer of dust/dirt, and the containers of food on the shelves are also very dusty. The chest freezer containing frozen meat has dirty enrichment items on top of it and accumulations of loose dirt. The large, commercial refrigerator inside the commissary has metal shelving that is rusted to the point that it is porous and cannot be properly cleaned and sanitized. The black, standard-sized refrigerator containing fresh meat, bones and produce has thick, brownish to pink fluid that has pooled and dried in the drawers and on the shelves, as well as other areas on the inner walls and floor of the refrigerator. Dirty or unsanitary surfaces and equipment used for preparing and keeping food can lead to contamination of food and illness in animals. The licensee must ensure that premises (buildings and grounds) shall be kept clean and in good repair to protect the animals and facilitate prescribed husbandry practices in the regulations.

TO BE CORRECTED BY MARCH 10, 2022.

This inspection and exit interview were conducted with facility representatives.
