FACILITIES, OUTDOOR.

The facility currently houses two camels, one nilgai and two African Crested porcupines, water buffalo, zebu and watusi. None of these animals are currently in enclosures that have a secondary or perimeter fence. The facility has a perimeter fence variance for the watusi only at this time. A perimeter fence is necessary to contain animals that may escape their primary enclosure and to prevent unwanted animals or people from having contact with the animals. The facility shall construct a secondary perimeter fence for the above listed animals or shall obtain a variance from the Regional Office. Correct by Dec. 15, 2014.

Exit conducted with undersigned facility representative.
