Certificate: **33-T-0011**

Site: **IAH**

GEORGE BUSH INTERCONTINENTAL AIRPORT

Type: ROUTINE INSPECTION

Date: 28-DEC-2016

3.13(c)

CONSIGNMENTS TO CARRIERS AND INTERMEDIATE HANDLERS.

During this inspection 5 puppies in four primary enclosures arrived to IAH from DFW and were continuing to YVR via United on AWB 16-29323766. No certification was attached to the four enclosures documenting the last time food and water was offered and specific instructions for the next feeding and watering for a 24 hour period.

To ensure dogs/puppies are fed and watered during transport according to the standards and regulations of section 3.16 under the AWA the required certifications for travel must be complete and securely attached to the outside of the enclosure. A carrier must not accept a dog/puppy for travel without a certification signed by the consignor containing the date and time of last watering and feeding and food and water instructions for the next 24 hours.The certification must be securely attached to the outside of the enclosure and easily readable. In cases of extended travel and unforeseen delays these instructions will provide information to those unfamiliar with the animals that may prevent potential dehydration and nutritional compromise.

Correct by: Immediate

The inspection and exit interview were conducted with Petsafe personnel.
