2.126(b)   Repeat

Access and inspection of records and property; submission of itineraries.

A responsible adult was not available to accompany APHIS Officials during the inspection process starting at 10:31 AM on 21-NOV-2023. The inspector first attempted to make contact at the facility starting at 10:31 AM via phone call and text message to the licensee however there was no reply. A phone call to a secondary facility contact was attempted at 10:54 AM however there was no reply. A voicemail was left by the inspector for both the licensee and the secondary facility contact. The inspector waited at a nearby gas station as well as at the outer gate of the facility. While waiting at the outer gate of the facility, a person who is not the licensee was observed just inside the inner gate at the end of the drive and appeared to be removing tools from the back of a truck. The person did not come to the gate or acknowledge the presence of the inspector's vehicle. Pet dogs were running outside and aware of the inspector's presence - they ran up to the inner gate and barked. The dogs were in close proximity to the person at the truck. After waiting one hour, a text message was sent to the secondary contact at 11:32 AM notifying them that the inspector was leaving the area.
