Inspection Report

Raymond Hoover

4596 Lakemont Himrod Rd

Dundee, NY 14837

Customer ID: **11170**

Certificate: **21-A-0065**

Site: 001

RAYMOND HOOVER

Type: ROUTINE INSPECTION

Date: 19-JUL-2016

3.1(a)

HOUSING FACILITIES, GENERAL.

*** The whelping boxes need to be addressed. The wood boxes are lined with plastic to facilitate cleaning, however several boxes have sections of plastic that are broken, chewed and peeled away from the wood. These whelping boxes need to be re lined or in some cases replaced to assure the enclosures are maintained in good repair for the safety of the dogs and to facilitate cleaning of the enclosures.

Correct by: Sept 22, 2016

3.11(b)(2)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

*** The plastic mesh floors of the whelping boxes are being wiped down but not sanitized in a manner that cleans effectively. There is hair and fecal debris left between the floor and the support braces and wood frame of the whelping enclosures. This excess debris is causing a stronger odor in the area. The entire enclosure area should be sanitized to effectively remove this debris and prevent disease hazards. This needs to be addressed for the health of the dogs.

Correct by: July 29, 2016

An exit briefing was conducted with a facility representative at the time of the inspection.
