Type: ROUTINE INSPECTION

Date: 03-MAR-2026

2.1(a)(1)

Requirements and application.

On March 3, 2026 a search inspection was conducted by APHIS officials. It was determined that the facility currently exhibits goats, parrots, rabbits, pigs, sheep, and an alpaca without a valid USDA license. The business was previously visited by USDA personnel in August of 2023, and informed that a license is required to exhibit these animals. A valid license is necessary to protect the health and well-being of the animals and to comply with the Animal Welfare Act and Regulations. The facility needs to obtain a USDA license or discontinue regulated activities.

No regulated activities may be conducted until a USDA license is obtained.

This inspection and exit interview were conducted with facility representatives.
