Type: ROUTINE INSPECTION
Date: 13-MAY-2026

2.31(a)

Institutional Animal Care and Use Committee (IACUC).

Each research facility must establish at least one Committee. The CEO of this research facility has not yet appointed an Institutional Animal Care and Use Committee (IACUC) and therefore, two active protocols, SOP019 (24 hamsters used November to December 2025), and SOP018 (20 ferrets used March to April 2026) have not been reviewed and approved by an IACUC. An IACUC is necessary to review and approve the proposed activities for the care and use of animals and to provide the proper oversight of the care and use of animals by the research facility. A properly constituted IACUC is required of every Class R facility, regardless of protocol activity. The Chief Executive Officer of this research facility shall appoint an IACUC, which shall include at a minimum a chairperson, the attending veterinarian and a person unaffiliated with the facility to assess the animal program, facilities and procedures for the health and welfare of the animals. Correct by: 06/01/2026.

2.31(c)

Institutional Animal Care and Use Committee (IACUC).

An Institutional Animal Care and Use Committee (IACUC) has not reviewed the research facility's Program for Animal Care and Use or inspected the animal facilities at least once every 6 months as required under the provisions of the Animal Welfare Act (AWA). Regular reviews are necessary to ensure adequate IACUC oversight and to ensure the welfare of the animals being used in research by the facility. Reports of those reviews must be prepared and submitted to the Institutional Official every 6 months. The facility must ensure that semiannual inspections and program reviews are completed at least once every 6 months. Correct by: 07/01/2026.

2.31(d)

Institutional Animal Care and Use Committee (IACUC).

There has been no review and approval of animal activities being performed before animals were used on Protocols SOP018 (20 ferrets from March to April 2026) and SOP019 (24 hamsters from November to December 2025) by an Institutional Animal Care and Use Committee (IACUC). IACUC review and approval of animal use is necessary to ensure that activities involving animals are being conducted in accordance with the Animal Welfare Act. The IACUC should make certain that all activities relating to the care and use of animals receive adequate oversight and that the activities are in

Inspection Report

accordance with the IACUC reviewed and approved protocols, SOP's and policies.
Correct by 07/01/2026.

2.36(a)

Annual report.

The research facility did not submit their USDA fiscal year 2025 (FY25) Annual Report to the Deputy Administrator on or before the extended deadline due date of 12/31/25. Per this Section, research facilities that use or intend to use live animals in research, tests, experiments, or for teaching shall submit an annual report, that covers the numbers of animals used during the previous Federal fiscal year, to the Deputy Administrator on or before the December due date in this Subchapter of the AWA. Timely submission of the annual report is essential to provide an accurate accounting of the total number of animals used and to ensure that professionally acceptable standards governing the care and use of animals were followed during the previous Federal fiscal year reporting period. The research facility needs to submit their USDA FY25 Annual Report.
Correct by: 07/01/2026.

This inspection and exit interview were conducted with a facility representatives.
