Miscellaneous.

A facility representative was not available to accompany APHIS Officials during the inspection process at 2:30pm on June 4, 2026. The inspector spoke with the lab tech, who did not have access to the required documentation. He called both the facility manager and the IACUC Chair, who were not available for inspection and not able to provide remote access to the documentation. Failure to provide access to the facility, animals, and records for inspection is a violation of the AWA and regulations. Continued failure to provide access is serious and may result in enforcement action.
