

Inspection Report

Godley Park District
500 S. Kankakee Street
Godley, IL 60407

Customer ID: **16331**
Certificate: **33-C-0507**
Site: 001
Godley Park District

Type: RE-LICENSE INSPECTION
Date: 02-JUN-2026

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

In 2025, the facility did not use any method to diagnose or screen for fecal intestinal parasites on their 5 adult fallow deer that are housed outdoors.

The facility's program of veterinary care specifies that the fallow deer's stools shall be tested "at least yearly" for fecal intestinal parasites. According to medical records, the last time the facility conducted such fecal testing on their fallow deer was November 19, 2024, over 18 months prior to the inspection.

Regular fecal parasite testing facilitates prompt identification and treatment of intestinal parasites. Without regular testing, parasites might go undiagnosed and untreated, which can affect the health and well-being of the deer.

Correct by performing fecal testing on the fallow deer in accordance with your program of veterinary care and by following all other instructions from your attending veterinarian in order to facilitate the prevention, control, diagnosis, and treatment of diseases and injuries.

This is a 1st Re-License Inspection for a Class C license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by August 1, 2026, or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
