Annual report.

While performing record review it was discovered that the facility did not complete and submit an annual report to the Deputy Administrator since December 2023. This was confirmed by a facility representative. Failure to complete and submit the annual report can negatively impact the health and well-being of the animals by undermining institutional and regulatory oversight, which can result in inadequate identification and correction of welfare concerns. Each reporting facility shall submit an annual report to the Deputy Administrator on or before December 1 of each calendar year. The report shall cover the previous Federal fiscal year.
