

Inspection Report

Birdland San Diego LLC
15918 Lyons Valley Rd
Jamul, CA 91935

Customer ID: **6020530**
Certificate: **93-A-0265**
Site: 001
Birdland San Diego LLC

Type: ROUTINE INSPECTION
Date: 03-MAR-2026

3.160(b)

Compatibility and separation

The facility maintains a large aviary structure that contains numerous primary enclosures of various sizes. Some small enclosures house only breeding pairs while other large enclosures house more than ten flighted birds. The licensee is currently housing a colony of seventeen domestic cats in the aviary that are not considered regulated animals. The cats are temporarily housed in several large primary enclosures directly adjacent to enclosures housing regulated birds separated by transparent wire screen dividers. The inspector observed an adult cat jumping onto the screened divider separating the cat enclosure from a neighboring bird enclosure. This type of activity has the potential to cause injury or undue stress to the regulated birds in the adjacent enclosure. Having mixed species in the same housing environment may lead to interactions that are hazardous to their health and well-being.

Birds may not be housed with other animals, including members of their own species, unless they are compatible, do not prevent access to food, water, or shelter by individual animals, and are known not to be hazardous to the health and well-being of each other. Compatibility must be determined in accordance with generally accepted professional practices. The licensee elected to relocate the cats to an enclosure not associated with the regulated collection.

To be corrected by March 17, 2026.

This inspection and exit interview were conducted with the licensee.
