58901 Overseas Hwy
Grassy Key, FL 33050

Customer ID: **3178**

Certificate: **58-C-0303**

Site: 001

Dolphin Research Center Inc

Type: FOCUSED INSPECTION

Date: 07-JUL-2026

3.106(b)(1)

Water quality.

The facility failed to collect the required samples at 48-hour intervals after a coliform sample collected from the Medical Pool on April 30, 2026, exceeded 1,000 MPN per 100 ml of water. Facility personnel stated the follow-up samples were not collected because testing supplies were unavailable.

Failure to collect the required follow-up samples prevents verification that corrective actions restored the water quality to acceptable levels for the marine mammals,

When coliform levels exceed 1,000 MPN per 100 ml of water, two subsequent samples must be collected at 48-hour intervals and averaged with the first sample. If such average count does not fall below 1000 MPN, then the water in the pool shall be deemed unsatisfactory. To be corrected from this day, July 7, 2026, forward.

This inspection and exit interview were conducted with facility representatives.

Additional Inspectors:

Kelly Helmick, Senior Veterinary Medical Officer
