### 2.31(c)(3)

#### Institutional Animal Care and Use Committee (IACUC).

The February 23, 2026, semi-annual facility inspection identifies minor departures, and although there is a reasonable and specific plan in place for each deficiency, dates for correcting each deficiency is not included in the plan. Without a set date, corrective actions can be delayed indefinitely, increasing the risk of recurrence. If program or facility deficiencies are noted, the reports must contain a reasonable and specific plan and schedule with dates for correcting each deficiency. Any failure to adhere to the plan and schedule that results in a significant deficiency remaining uncorrected shall be reported in writing within 15 business days by the IACUC, through the Institutional Official, to APHIS and any Federal agency funding that activity.

To be corrected from this day forward, July 2, 2026.

This inspection and exit interview were conducted with the facility representatives.
