Contingency planning.

- The facility contingency plan does not address vehicle breakdowns or vehicle accidents. As a traveling exhibitor, problems such as breakdowns or accidents should reasonably have been anticipated and addressed in the contingency plan. Failure to consider appropriate responses to these problems could result in inappropriate actions taken during an actual emergency. The facility should modify their contingency plan to include appropriate responses to the potential occurrence of mechanical breakdowns and/or vehicle accidents.
Corrected at the time of inspection.

This inspection and exit interview were conducted with licensee.
