Type: ROUTINE INSPECTION

Date: 30-MAR-2026

2.131(d)(2)

Handling of animals.

At the time of inspection, there were no attendants monitoring the enclosures that allow members of the public to interact with the animals. In two separate areas, members of the public were seen feeding animals with no attendant present. Without an attendant present to monitor interactions, both animals and members of the public are at greater risk of injury. The facility must have a responsible, knowledgeable, and readily identifiable employee or attendant present at all times during periods of public contact.
To be corrected by April 13, 2026.

This inspection and exit interview were conducted with a facility representative.
