Type: ROUTINE INSPECTION

Date: 03-APR-2026

2.25(a)

Requirements and procedures.

This carrier conducted regulated activity without an active registration when they accepted an approximately 4-month-old Pomeranian puppy for transport on September 9, 2025. Their registration expired on December 11, 2023. The carrier stated that she was unaware that the registration had expired.

Proper registration is essential for ensuring compliance with the Animal Welfare Act and Regulations during transportation of covered animals in commerce. Each carrier or intermediate handler who handles covered animals shall ensure that they are registered by completing and filing a properly executed registration form, and updating the registration form every 3 years by the completion and filing of a new form.

Correct by applying for a new registration. No regulated activity may be conducted until a valid USDA registration is obtained.

This inspection and exit interview were conducted with a facility representative.
