Type: ROUTINE INSPECTION

Date: 08-APR-2026

2.134(b)

Contingency planning.

There is no documentation maintained to indicate that an annual review of the contingency plan has been completed. The date listed on the contingency plan is 25 July 2022. Failure to review the plan may result in an adverse impact to animal welfare during emergencies, such as delay in seeking medical care. The contingency plan must be reviewed by the facility on at least an annual basis to ensure that it adequately addresses all required contingency-related criteria and that no updates or changes need to be made to the plan such as changes made as a result of any recent unforeseen circumstance or the addition of new species. The facility must maintain documentation of their contingency plan annual reviews including documenting any amendments or changes made since the previous year's review.

This inspection and exit interview were conducted with the facility representative.
