

Inspection Report

Northwestern University
750 N Lakeshore Drive
Rubloff 7-735
Chicago, IL 60611

Customer ID: **580**
Certificate: **33-R-0129**
Site: 001
Lurie Building

Type: FOCUSED INSPECTION
Date: 24-JUN-2026

2.31(d)(1)(ii)

Institutional Animal Care and Use Committee (IACUC).

IACUC-approved Protocol #IS00020107 involves four procedures that have the potential to cause more than momentary or slight pain or distress. While the protocol narrative includes consideration of and a literature search for alternatives to three of these procedures, one of the procedures was not included in this narrative.

Considering alternatives to each procedure that might cause more than momentary or slight pain or distress minimizes the pain and distress the animals might experience.

Correct by amending this protocol. All IACUC-approved protocols must ensure the principal investigator has considered alternatives to procedures that may cause more than momentary or slight pain or distress to the animals, and has provided a written narrative description of the methods and sources, used to determine that alternatives were not available. Correction date: July 24, 2026.

This inspection and exit interview were conducted with facility representatives.
