Site: 001

L R TRANSPORT LLC

Type: ROUTINE INSPECTION

Date: 22-JAN-2026

2.77(b)

Records: Carriers and intermediate handlers.

During inspection, records review identified that two shipments of nonhuman primates did not maintain a record of the health certificate issued by a licensed veterinarian for shipments dated 8 January 2025 from Louisiana to Nevada and 29 January 2025 from Florida to Maryland.

USDA regulation requires that the accepting carrier or intermediate handler shall keep and maintain a copy of the health certificate completed as required by 2.78, tendered with each nonhuman primate transport.

Correct by 23 February 2026 for all future nonhuman primate shipments.

3.90(a)

Care in transit.

During records review, an animal health observation log did not indicate that the animals transported from Texas to Louisiana were observed at minimum once every 4 hours during transportation. The original record indicated two checks at 9AM P/T (11 AM in Central time) on 3 December 2025 and 6:20 AM (Central time) on 4 December 2025. The registrant contacted the driver, who confirmed a weather delay in loading/unloading but the requirement is still to observe the animals no less than every 4 hours.

Correct by 23 February 2025 and for all future transportation of nonhuman primates.

This inspection and exit interview were conducted with the registrant.
