Type: ROUTINE INSPECTION
Date: 12-AUG-2026

3.131(a)

Sanitation.

An enclosure housing three adult degus was in need of cleaning. The wooden platforms in the enclosure have extensive urine staining. The boards which were construction lumber had turned a deep mottled brown with white areas. Accumulations of excreta can lead to contamination of the animals, may lead to disease, and create odors. Excreta shall be removed from primary enclosures as often as necessary to prevent contamination of the animals contained therein and to minimize disease hazards and to reduce odors. Correct by ensuring that excreta is removed as often as necessary to prevent accumulation that may affect the animals

This inspection and exit interview were conducted with a facility representative.
