### Repeat

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

There are expired bottles of compounded Pentoxifylline, Enalapril, and Isoxsuprine in the medication prep and storage area in building B. The three expired medications are prescribed to a female blue and yellow macaw named "Lindy". All medications expired on 8/18/26 and are still being administered to "Lindy". The use of expired medications is not considered to be a safe or appropriate method to prevent, control, diagnose, and treat diseases and injuries since the expected results cannot be guaranteed. The licensee must ensure all medications used for animals covered under the Animal Welfare Act are not expired. The facility corrected this at time of inspection by throwing away all expired medications.

This inspection and exit interview were conducted with facility representatives.
