

Inspection Report

Caara Bergeron

3857 Animal Land Dr SE
Bemidji, MN 56601

Customer ID: **326631**

Certificate: **41-C-0280**

Site: 001

Caara Bergeron

Type: ROUTINE INSPECTION

Date: 06-AUG-2026

3.125(a)

Facilities, general.

The black bear enclosure has a wooden platform that the bears can go under and climb on top of. The wooden platform has a board that has been broken from the top and hanging at a downwards angle. The board has sharp and jagged edges that could potentially cause injury.

The bobcat enclosure has a gap underneath the metal siding (to the left of the outside opening of its shelter) with jagged edges. The jagged edges could cause injury.

The housing facilities shall be structurally sound and maintained in good repair to protect the animals from injury. The wooden platform in the bear enclosure and the gap underneath the metal siding in the bobcat enclosure needs to be repaired/replaced so it doesn't cause injury to the animals within those enclosures.

Correct by 8/20/26.

This inspection and exit interview were conducted with the licensee.

End of report.
