

Inspection Report

Chance Lantz
2763 CR 618
Cape Girardeau, MO 63701

Customer ID: **6026174**
Certificate: **43-C-0431**
Site: 001
Chance Lantz

Type: ROUTINE INSPECTION
Date: 25-AUG-2026

2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The licensee did not provide access to a copy of the Program of Veterinary Care (PVC). The licensee stated that the PVC was not on site and was otherwise inaccessible at the time of inspection. The PVC was reviewed and acceptable at the last inspection on June 4, 2026. A water buffalo was acquired since the last inspection. Changes to the PVC to include this new species could not be evaluated. Failure to establish and maintain a Program of Veterinary Care may compromise animal welfare. The PVC must be properly maintained and available for review at the time of inspection. To be corrected by September 10, 2026.

2.75(b)(1)

Records: Dealers and exhibitors.

The licensee did not provide access to acquisition or disposition records. The licensee stated that acquisition and disposition records were not on site and were inaccessible at the time of inspection. The licensee stated that a kangaroo and two alpacas were sold and a water buffalo was acquired since the last inspection. Appropriate documentation of acquisition and disposition of regulated animals is essential for proper identification and necessary to track animals used in regulated activities to ensure their humane care, use, and disposition. Every dealer shall make, keep and maintain records of acquisition and disposition for all regulated animals, including animals born on the premises. These records must be available for review at the time of inspection. To be corrected by September 10, 2026.

2.134(b)

Contingency planning.

The licensee did not provide access to a copy of the contingency plan. The licensee stated that the contingency plan was not on site and was otherwise inaccessible at the time of inspection. The contingency plan was reviewed and acceptable at the time of the last inspection on June 4, 2026. The written contingency plan ensures instructions for personnel are available and animal welfare is maintained in the event of an emergency. Contingency plans, as well as all annual review documentation, must be made available to APHIS upon request. To be corrected by September 10, 2026.

This inspection and exit interview were conducted with the licensee.
