Vice President for Research & Innovation
P.O. Box 305250
DENTON, TX 76203

Customer ID: **1449**
Certificate: **74-R-0033**
Site: 002
University of North Texas

Type: ROUTINE INSPECTION
Date: 22-JUL-2026

2.38(l)(2)

Miscellaneous.

It has been more than a year since the last annual review of the contingency plan. The facility is in the midst of reviewing the plan and the last recorded review was in "Fiscal Year 2023". An annual review of the contingency plan helps ensure that any needed changes are made and communicated to all personnel that have a role or responsibilities in the plan to help avoid animal discomfort, illness, injury or death in the event of an emergency or disaster. The registrant must ensure that the contingency plan is reviewed on at least an annual basis to confirm that it adequately addresses the criteria listed in Section 2.38(l)(1) and must also maintain documentation of those reviews, to include any amendments or changes made to the plan since the previous year's review.

Correct from this date forward.

This inspection and exit interview were conducted with the facility representatives.
