Brunos Aquarium LLC

Type: FOCUSED INSPECTION
Date: 04-AUG-2026

2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

During this focused inspection, it was found that the facility has not completed a written Program of Veterinary Care for animals in the facility.

A written Program of Veterinary Care is required for all USDA licensed facilities.

A written Program of Veterinary Care is needed to ensure that all regulated animals in a facility receive appropriate and timely preventative medical care and treatment, as determined by a licensed veterinarian.

Correct by 08-15-2026

2.40(b)(3) Direct Repeat

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

A focused inspection was conducted by a USDA VMO on 04AUG2026 to verify veterinary evaluation and treatment of a young Quaker/Monk Parrot previously listed under an AWA 2.40(b)(3) non-compliance citation on 24JULY2026. The correction date given on the report was 01AUGUST2026.

The young Quaker/Monk Parrot cited on the July 24, 2026 USDA report had not yet been evaluated by a veterinarian at the time of the USDA focused inspection on August 04, 2026. The young parrot appeared alert and in good body condition, however, was also observed to be splay-legged and unable to stand or ambulate normally during inspection.

Direct and timely communication with a licensed veterinarian is required when problems arise affecting animal health, well-being or behavior. Failure to communicate animal health issues in a timely manner to your veterinarian may result in further animal injury and distress.

The facility owner agreed to take the bird to a nearby veterinary clinic accompanied by the USDA inspector during the inspection visit. The parrot was taken by a facility employee to a nearby veterinary clinic where it was evaluated and left for follow up treatment with the clinic veterinarian.
